

2nd National Oncofertility Summit

4 December 2019, The Royal Children's Hospital, Ella Latham Lecture Theatre

The Fertility Preservation Service warmly invites you to The 2nd National Oncofertility Summit. The Summit brings together families, clinicians, scientists and policy-makers and provides a unique opportunity to explore potential solutions for the most challenging issues in oncofertility care and survivorship. Key themes for the Summit include:

- Science and technology: where did we come from, where are we now
- Program: updates from Australasian, global and European Oncofertility Consortium
- Working towards national key performance indicators
- Governance: selection criteria and clinical ethics governance
- Special population care: Cancer, gender diverse community, Turner Syndrome
- Psychosocial: Supporting patients, families and clinicians in fertility decision making
- The value of coordinated nurse-led oncofertility care
- Sexual and reproductive care in survivorship

Who should attend: Allied health professionals, clinicians, consumers and families, ethicists, nurses, policymakers, researchers and students.

International speakers include:

Prof. Richard Anderson
University of Edinburgh

Prof. Christine Wyns
C.U. Saint-Luc

Assoc. Prof. Leslie Appiah
University of Colorado

Prof. Lillian Meacham
